

Contemporary Arched Canopy

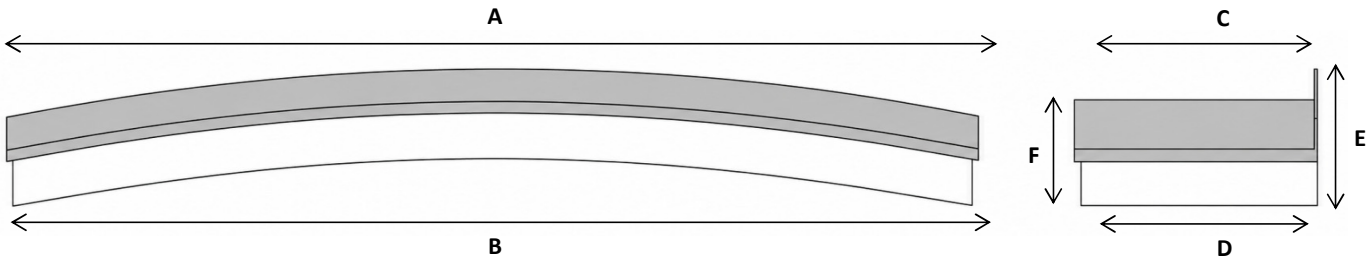

Features:

- Distinctive shallow arched design
- Two standard sizes available
- Optional decorative brackets
- Low maintenance GRP construction
- Easy installation
- Choice of roof colours

Description:

The Contemporary Arched Canopy is a stylish GRP door canopy featuring a subtle curved profile that suits both modern and traditional properties. Its clean, understated design provides an attractive alternative to conventional flat or pitched canopies, with optional decorative brackets and a choice of roof colours available.
